PROFESSIONAL SUMMARY

Information Technology graduate with hands-on experience in developing web applications using Python, Django, FastAPI, and React. Skilled in database management and creating responsive user interfaces. Eager to learn, solve problems, and contribute effectively in a software development role.

EDUCATION

Annamalai University , BE Information Technology – Chidambaram CGPA: 9.11	2021 – 2025
S.D.Sion Matric Hr Secondary School , HSC – Boothangudi Percentage: 88.96	2020 – 2021
S.D.Sion Matric Hr Secondary School , SSLC – Boothangudi Percentage: 84.8	2019 – 2020

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, HTML, CSS

Frameworks & Libraries: Django, FastAPI, React, Bootstrap, TensorFlow

Databases & Tools: MySQL, SQLite, Git, VS Code, Arduino

Specializations: Full-Stack Development, CNN, IoT, REST API, AI/ML, Web Development

PROJECTS

Smart Patient Management System | Python, FastAPI, SQLite, React, SQLAlchemy, NLP, RandomForest GitHub

- Developed an AI-powered patient management system using Python, FastAPI, React, and SQLite with a RandomForest model trained on 110K+ patient records to predict appointment no-show risk and an NLP-based symptom triage system for clinical priority classification.
- Built RESTful APIs with Pydantic and SQLAlchemy, created an interactive analytics dashboard with real-time charts, and implemented the complete ML pipeline including preprocessing, feature engineering, model training, evaluation, and deployment.

MaizeCare SensorNet | Python, FastAPI, React, Arduino, CNN GitHub

- Built end-to-end agricultural monitoring system with CNN disease detection model achieving 85%+ accuracy, integrated IoT environmental sensors, and developed full-stack web application for real-time data visualization.
- Implemented image preprocessing, data augmentation, model training and evaluation, and sensor data handling to enable accurate predictions and system reliability.

E-Commerce Website | HTML, CSS, Bootstrap Demo

- Developed a responsive e-commerce platform using Bootstrap with modern UI/UX, product catalog, shopping cart functionality, and mobile-first design while creating structured layouts and reusable UI components.

INTERNSHIP

AI/ML Intern – Widezo Private Limited | Virtual June 2024 – July 2024

- Explored supervised and unsupervised machine learning techniques, including regression, classification, and clustering, with a strong understanding of AI/ML fundamentals such as data preprocessing, feature selection, and model evaluation.

UI/UX Intern – Yazhi Software Solution | Virtual June 2023 – July 2023

- Designed user journey maps and wireframes in Miro while applying UI/UX principles to create intuitive user flows and improve user experience through iterative, user-centered design.

CERTIFICATIONS

Python Certification:

- 3-Month Comprehensive Python Training Program. – Besant Technologies, Chennai. June 2025 - Sept 2025

NPTEL Certification:

- Natural Language Processing
- Privacy and Security in Online Social Media
